CHAIRMAN'S DESK

It gives me great pleasure to invite you to take an initial peek into the heart that beats behind the appealing façade of Mahendra Arts and Science College. I thank you for your interest in this exceptional institution which has recorded two decades of constant development, in the course of which it has accomplished much, making it one of the colleges recognized for its excellence and therefore, much sought after by the fresh applicants.

The Mahendra Arts and Science College tradition happily brings together sound academic achievement with an extensive, vibrant co-curricular programme that includes sports, and leadership training programmes. Our mission is to inculcate the love of knowledge in our students and, for this; we aim to develop the skills and demeanor of lifelong 'learning,' essential for making responsible global citizens. This will make them immensely capable of facing the future with resilience and optimism. On the deeper level, we try to instill the values of respect and trust in relationships that are the foundation of real success.

At MASC then, we believe that 'education' is a wholesome, holistic exercise and as such we strive to give a whole new meaning to the word. Coupling this basic premise with the idea of a sense of belonging to one family - the MASC family - we look at ourselves as 'care-givers.' We care for the mind - ours is a sterling academic institution; we care for the person - the accent is on the all-round development of personality. I wish you the best in the process of seeking to become a part of this family.

PRINCIPAL'S DESK

Dear All,

We step into this new academic year, filled with hope and dreams of ascending new heights. The purpose of education is to teach students to think and develop a capacity to reason out facts. Students should keep in mind the importance of planning and prioritizing their time and the effective use of it which are essential to achieve success.

We should always think and review – discover the cause and effect of every event, in which they are involved. Do not surrender or become a slave to youthful fancies and indulgences. Be steady in your studies. Learn to enjoy hard work – particularly your studies. Think wisely, think systematically. Always prepare yourself for next day's lesson. Be very serious and attentive in class.

Preserve our heritage and environment for yourself as well as for your next generation. Always be a soldier to defend and preserve our traditions and our territory. With experienced and dedicated teachers and excellent infrastructure, our college helps students to realize their goals in life. I encourage all students to take advantage of the opportunities provided by the college and involve themselves in all the extracurricular activities that are offered. The overall development of the mind and body is a sign of a healthy and complete development.

Hard work, dedication and perseverance are the most important traits in a person that lead to success. The future belongs to you; your need, therefore, is to prepare yourself for an active participation in the world. This participation demands that you become well informed and hence develop yourself like a pioneer and ultimately grow as responsible men and women.

“The reward of hardwork is success”

Wishing you all Good Luck.
